STATINTL

1. Subject, a recently retired Office of Communications employee, submitted a claim for back pay based upon Comp. Gen. B-183086(1975). This opinion required retroactive temporary promotions for employees in the classified Civil Service improperly detailed to higher grade positions for extended periods. Subject's claim was denied by the Director of Communications based, in part, on a ruling from this Office.

2. Referent A is a memorandum from subject to the Director of Personnel, which questioned the correctness and consistency of our ruling and further requests that the claim be processed through the appropriate Agency appeals channel. Referent B is a copy of the referral of subject's memorandum to this Office for action.

3. Referent C is our proposed response to subject's comments concerning our earlier ruling. Paragraph 2 of this letter notes that I have forwarded his claim to your office for appellate consideration.
